Cognatos Verdadeiros

- **informação** → **information**
- **tecnologia** → **technology**
- **documento** → **document**
- **aplicativo** → **application**
- **interface** → **interface**

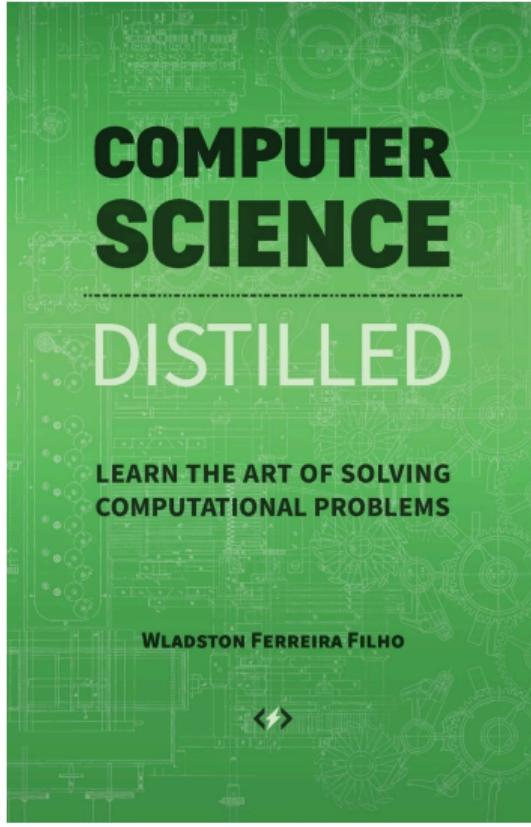

Falsos Cognatos

- **pretender** → **intend** (not “pretend”)
- **assumir** → **presume** (not “assume”)
- **enrolar** → **wrap** (not “enroll”)
- **esquisito** → **weird** (not “exquisite”)
- **passagem** → **ticket** (sometimes!)

Computer Science - Distilled

Distilled?

distill (US) *verb*

or chiefly British **distil** /dɪ'stɪl/ ⓘ

distills; distilled; distilling

Britannica Dictionary definition of DISTILL

[+ object]

1 a : to make (a liquid) pure by heating it until it becomes a gas and then cooling it until it is a liquid again : to purify (a liquid) by distillation

- *distilled water*

b : to make (a strong alcoholic drink) by using this process

- They *distill* the whiskey from malted barley.

2 : to take the most important parts of something and put them in a different and usually improved form

- He has perfectly *distilled* the meaning of the holiday into a poem.
- Her wisdom is *distilled* from [=her wisdom comes from] many years of experience.

— **distillation** /,dɪstə'lɪʃən/ ⓘ **noun, plural** **distillations**

[noncount]

- the *distillation* of brandy from wine
- the *distillation* of experience

[count]

- The poem is a perfect *distillation* of the meaning of the holiday.

Phrasal verbs

Phrasal verbs

Os phrasal verbs (**verbos frasais**) são verbos que vêm acompanhados por preposições ou advérbios.

Com o acréscimo de uma preposição ou de um advérbio, o sentido do verbo original pode mudar completamente.

Por isso, os verbos frasais não podem ser traduzidos literalmente, palavra por palavra.

4 phrasal verbs with ‘BOOK’

- Book in
- Book into
- Book out
- Book up

Book in

Make a reservation in advance

(Separable [obligatory] | British English)

Example: I'll BOOK us IN at the Intercontinental.

Check in at a hotel (Separable [obligatory] | British English)

Example: WE took a taxi from the airport to the hotel and BOOKED IN.

Book into

Make a reservation in advance

(Separable [obligatory] | British English)

Example: I've BOOKED us INTO a hotel in the centre of town for three nights.

Check in at a hotel

(Separable [obligatory] | British English)

Example: We BOOKED INTO the first hotel we could find.

Book out

Leave a place in a hurry
(Intransitive | International English)

Example: I don't like the look of the people arriving- let's BOOK OUT.

Book up

Reserve

(Intransitive | International English) Example: The flight's fully BOOKED UP;
I'll have to go the following day.

Other meaning

Overbooking is the practice of selling or reserving more seats or accommodations than the available capacity of a service, commonly seen in the travel and hospitality industries. This often occurs to compensate for expected cancellations or no-shows, ensuring that businesses maximize their occupancy or capacity. In cases of overbooking, passengers may be denied boarding even if they have met all requirements, leading to potential inconveniences.

Compound words I

- Bookworm: Pessoa que adora ler (literalmente: "traça de livro").
- Bookkeeper / Bookkeeping: Contador / Contabilidade (a pessoa que mantém os livros de registros).
- Booklet: Um livrinho ou folheto (sufixo -let indica pequeno).
- Bookcase / Bookshelf: Estante para livros.

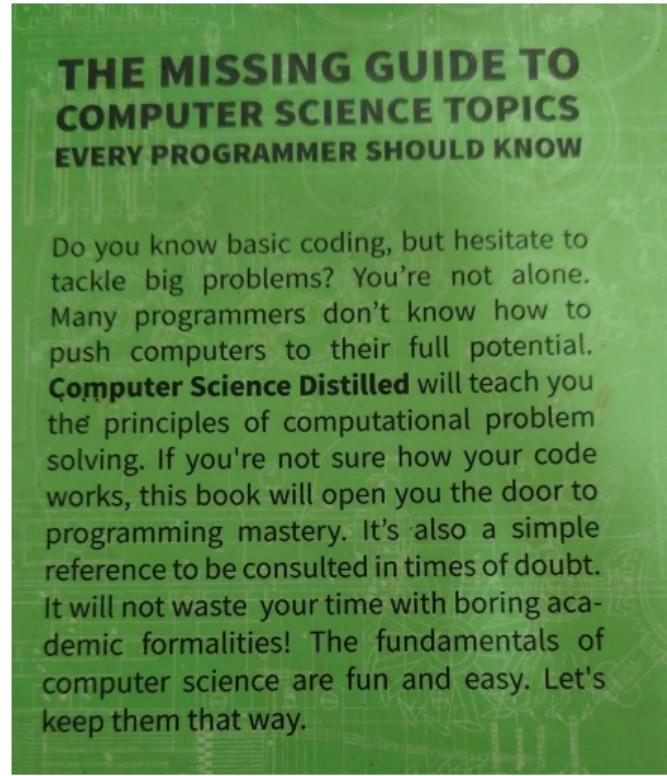

Compound words II

- Bookmark: Marcador de páginas (ou o favorito no navegador).
- Bookend: Suporte para sustentar livros na estante.
- Bookfair: Feira do livro.
- Bookmaker (ou “Bookie”): Agente ou casa de apostas (que faz o livro das probabilidades).
- Booksmart: Inteligente no sentido acadêmico/theórico (em oposição a street smart).

Back cover

THE MISSING GUIDE TO COMPUTER SCIENCE TOPICS EVERY PROGRAMMER SHOULD KNOW

Do you know basic coding, but hesitate to tackle big problems? You're not alone. Many programmers don't know how to push computers to their full potential. **Computer Science Distilled** will teach you the principles of computational problem solving. If you're not sure how your code works, this book will open you the door to programming mastery. It's also a simple reference to be consulted in times of doubt. It will not waste your time with boring academic formalities! The fundamentals of computer science are fun and easy. Let's keep them that way.

Book spine

Why is too slow read on paper book?
Because there is a book spine.

Any sufficiently advanced
technology is indistinguishable
from magic.

Arthur C. Clarke

When someone says: “I want a programming language in which I need only say what I wish done”, give him a lollipop.

Alan J. Perlis
